Magiczny Kraków

The Congress agenda is now available!

2018-11-06

Kraków is famous for its highly qualified doctors, who practice medicine at a truly top-notch level. It turns out that the city enjoys renown not only in Poland: its clinics are now also increasingly chosen by foreign patients.

Mindful of the fact that medical tourism is one of the fastest-growing branches of the tourist industry in Kraków and the world at large, the **Municipal Office of Kraków,** in cooperation with the **Kraków Festival Office – operator of the ICE Kraków Congress Centre**, has decided to organise the third edition of the event.

Our speakers will include medical and tourist industry theoreticians and practitioners from Poland and beyond (e.g. Israel, Germany, Turkey, Ukraine, the US, and the UK).
The agenda features LECTURES, PANEL DISCUSSIONS, WORKSHOPS, BUSINESS MEETINGS.

A DETAILED AGENDA IS AVAILABLE >>HERE<<
